## SCHOOL REPORT OF CAMPTON, N. H., 1893.

Schools have been maintained in twelve different places in town during the past year. All have been very successful, while some have been eminently so. Parents generally have seemed interested to have a good school and have co-operated to secure such a result. We feel to thank them for so heartily accepting all the new features introduced by the school board and laboring so faithfully to make them a success. We have taken much pains the past year to secure as good teachers as possible for the pay we give. Some think teachers receive too much pay for the work they do; if those that think so would step into the school house and teach one term as well as they are now taught, we think grumbling in that direction would cease. The moral influence in our school has been good. The reading of the Bible and prayer has been a daily exercise in all of them. While the intellect has been cared for, the conscience has not been over-looked. Our schools are second only to our homes, with good morality at home and at school our pupils will grow up to make men and women that will be an honor to the town. The school board have neither spared their own time or money, for the welfare of our schools, and we think the Roll of Honor of the spring term reached the highest per cent. ever attained in town. It being a little over fifty per cent. The badges given by the school board have doubtless done much toward this unequalled result. New flags have been raised over three school houses during the year without expense to the district; and we

hope before the close of another year the stars and stripes will float over every school house in town. The agents appointed have expended the money raised by the district last year for the repairs of school houses as follows: The house at the Village has been repaired inside and out. The old well worn desks have been replaced with new ones from the Sydney School Furniture Co., of Sydney, Ohio; and is now the best house in town. The house at West Campton has been painted outside and shingled, and the one on the West Road has been new clapboarded but has not been painted for want of funds. When this is done all the houses will be in good repair except the two in the East part of the town. And we hope the district will vote to raise money to repair them this year. In conclusion I can say, we have performed the work intrusted to us, conscious of its importance, and desirous of doing it faithfully and well, and now leave the result to you.

Respectfully submitted,

DANIEL C. HILL, Chairman of School Board.

# THE BRADLEY FERTILIZERS.

THE increased yearly sales of  
BRADLEY'S FERTILIZERS  
for the past thirty-one years,  
since 1861, are illustrated  
by these pyramids. The  
sales in 1861 were  
about 500 tons, as  
represented by this  
SMALLEST PYRAMID

1861.

This Pyramid indicates the 1892 sales of Bradley's Fertilizers.

## THE REASONS FOR THIS INCREASE:

The BRADLEY FERTILIZER CO. use only the *best* of crude materials, which are carefully prepared by approved machinery according to formulas based upon thorough field tests, thus furnishing the best plant-food possible to secure. These essential requisites, combined with liberal dealings with the farmers, have made the BRADLEY FERTILIZER CO. the largest manufacturers of Commercial Fertilizers in the world.
